Subject: What's the delay? Fw: 508 compliant Dimock pdfs

Hi John,

It looks like the revised pdfs I sent you still haven't been uploaded. What's the delay? Can I do anything to help it along?

John,

How's that coming with Edison uploading the revised Dimock pdfs? I checked the page <http://www.epa.gov/aboutepa/states/pa.html> again and found that these are still non-compliant:

1) March 2012 validated data summary report for 11 Dimock households (PDF)
<http://www.epaos.org/sites/7555/files/Week%201%20Report%20Highlighted%20%2003%2027%2012.pdf>

Here's the fixed file.

2) January 19, 2012 Action Memo (The compliant version of this is attached in my previous email below.)
<http://www.epaos.org/sites/7555/files/Dimock%20Action%20Memo%2001-19-12.PDF>

The dimock.pdf has vanished from the web -- 'tis a mystery!

Subject: 508 compliant Dimock pdfs

Hi John,

Attached are 508 compliant versions of 3 pdfs dealing with Dimock.

For the first two, note that I inserted dashes where there are now blank spaces. The reason is, as you can see below, blanks can show up as %20. Besides being confusing, this can mess up websites that use Content Management Systems. I also replaced upper case with lower case letters. Some browsers are picky about case. For instance, typing in ...dimock.pdf might give you a broken link if the file is saved as ...Dimock.pdf.

All that said, if you think that changing the file names will create a lot of broken links, just change them back to the original names.

Please upload these to your website, replacing what's currently up. Please let me know when that is done.

This third pdf is from another site. Is this under another name on your page:

http://www.epaosc.org/site/doc_list.aspx?site_id=7555 ? If so, please replace it with this version. If it is not up, let me know and I'll send this to HQs to upload.

Thanks.
